

Kemball School Pupil Futures

"We can because we try"

(Careers Support Guide)

Stepping Stones to life beyond Kemball School

Intent

We at Kemball would like to commit to providing all our young people with the tools and experiences to prepare them for life beyond our school. This journey will look different for each individual and each person will have a very different goal and outlook for achievement. It is important for us that pupils gain the confidence to explore outside our school and learn the skills, knowledge and understanding of wider life and steps towards independent living. We want our young people to be able to make informed decisions about next steps in education and future careers.

Social mobility is described as the relationship between our starting point in life and where we end up as adults.

Society often has difficult barriers for pupils with a Special Education Need and Disabilities to thrive. Developing skills and awareness of the world of work and wider life will improve the social mobility of our young people.

Believe you can and you're half way there.

We aim to instil in our young people a love of lifelong learning, so they can keep on improving and developing their skills, sustain employability/progress and achieve personal/economic wellbeing throughout their lives. We also aim to enable young people to feel positive about themselves, improve their motivation and raise their aspirations.

Advice and guidance will be impartial and will take into account the young person's wellbeing, choices and areas of interest. Equal opportunities will be actively promoted, and stereotypes challenged. This policy is underpinned by the DfE's statutory guidance, 'Careers guidance and access for education and training providers', which was last updated in July 2021.

Our main aims are the following:

- o To ensure that all pupils have access to experiences beyond the school gates and the world around them
- o To focus on the pupil's wellbeing, interests and choices for their future
- o To develop skills towards independent lives including transition, travel, social and professional relationships, communication, careers and enterprise, community awareness, roles and responsibilities and home and life skills.

- o To prepare for appropriate post-16 provision
- To inspire the pupils to achieve their dreams and to support them by being their careers advocates to achieve these outcomes
- o To provide support and guidance for both pupils and staff
- o To expose pupils to the world of work at careers at every ability level
- o To ensure that school are consistently improving their careers and steps beyond Kemball provision and using the Gatsby benchmarks as a framework and guide.

Policy

Please refer to our school Careers policy for further information on careers and how to support our young people with preparing for life beyond Kemball School.

You will also find useful guidance in the Mental Health and Wellbeing policy and PSHE policy to support pupil with social mobility and independent lives.

Programme

Pupils of all ages should be engaging with learning which has links with preparation for adulthood steps to prepare them for life beyond Kemball. For pupils who it is deemed appropriate within Progression and Functional Pathways will receive careers education as appropriate for their ages and abilities as directed by the class teacher. This will be delivered in class where appropriate, through cross-curricular activities in topic-based lessons, through PSHE, and during life skills lessons. The aim of these sessions is to introduce pupils to the different jobs they may encounter in the wider community, their own ambitions for the future, the skills and qualities they have as valued members of the school community, and to begin challenging stereotypes surrounding jobs and those that enter different employment sectors. Below you will see the aims to be considered benchmarks for pupils. We are aware that not all of our pupils will be able to achieve these outcomes within these time frames however we are setting these as benchmarks. You will find further guidance of steps towards these below.

Those pupils following the functional pathway in year 9, 10 and 11 will be assessed on their individual needs and will experience work placements and employer encounters that aim to be individualised and relevant to pupils. These will

include employer encounters with local businesses, workplace visits, work placements and in class activities through ASDAN, functional maths and English lessons and life-skills lessons.

Delivery expectations

Most areas of 'Pupil Futures'

Documenting evidence

All of Progression and Functional classes for pupils who it appropriate for will have a Steps to life beyond Kemball journal. In this book staff will document any encounters with the world of work. This may include diary entries from work experience, pupil feedback from visitors and talks about careers, research on the job market, evidence of interviews and discussions with careers advisors and applications and CV practise.

Alternatively, staff may wish to capture evidence on Evidence for Learning using the Preparation for Adulthood tag. Ensuring that within the comment detail has been given of the link between careers or encounters etc.

Below is a guide for how we can implement careers and steps towards life beyond Kemball School.

Employment

Developing our future (Includes careers, employment, roles and responsibilities and community awareness)

Step 1	Step 2	Step 3	Step 4	Step 5	Step 6	Stepl 7	Step 8
